Old Business:

1. The committee reviewed one application for the 'Game Damage Emergency' funds. Christine Collin has irrigated hay fields east of Colona, and usually tolerates average use by elk during the winter. Due to the extreme winter conditions this year, the elk arrived earlier than usual and remained on the fields much later than normal, resulting in aftermath damage as well as impacts to new spring growth. Ms. Collin was unaware of HPP fertilizer or Game Damage options until it was too late to participate in those processes. The committee approved a forage loss payment for \$1,000.00.
