Rolling Ridge HOA Fence: Jack began by explaining that the project is a reimbursement of fence materials. The property is located in north Routt, south of Sleeping Giant. The area sees high deer, elk, and pronghorn movement. Harvey pointed out the 300 acre property is surrounded by cattle grazing. The current fence does not meet wildlife friendly specifications and is falling apart. The first phase, approximately 1200' of fence, was already replaced in September. The wildlife friendly design consists of four strands total; three barbed wire and vinyl top wire. Harvey approached one other neighbor but they were not interested in cost sharing. Seasonal grazing is allowed through a lease, however HOA covenants do not allow hunting. He also mentioned that if a section of fence is repairable then they will fix it. Kris pointed out that moving forward a request for funding would need to happen before the project is started. The committee approved \$1800 for the project, not to exceed \$1.50/foot. Harvey signed off at 6:05pm.

Monger 120 Spring Development: Application pulled.
